3. MESSAGE FROM THE CHIEF EXECUTIVE OFFICER

3. 行政總裁寄語

Dear Stakeholders,

On behalf of the Board, I am delighted to introduce the Group's tenth ESG Report. This Report captures our unwavering dedication to sustainable development and the notable strides we have taken over the Year.

Operating in a fast-changing commercial world demands responsible conduct. This is not only about addressing immediate needs but also about protecting opportunities for the future. We fully recognise the considerable influence of our stakeholders, and therefore continue to apply high sustainability standards throughout our business. Starting from 2022, the Group has been following a well-defined 5-Year ESG Roadmap, which aims to raise our ESG performance in a systematic manner. The Board and the ESG Committee regularly assess the roadmap's progress, making sure that our business development remains consistent with our targets while promoting steady enhancements. All these actions underline the Group's resolve to build a sustainable future for society and the environment.

To further demonstrate our commitment, we consistently take part in the Global Real Estate Sustainability Benchmark ("GRESB") assessment. This enables us to benchmark our performance against industry standards, identify areas for improvement, and continually refine our strategies. During the Year, we remained actively engaged in the assessment process, using the insights gained to strengthen our ESG practices across our development portfolios. Our ongoing participation reflects our dedication to learning from industry best practices and steadily advancing our sustainability performance.

各位持份者：

本人謹代表董事會欣然提交本集團的第十份環境、社會及管治報告。本報告反映我們對於可持續發展的持續承諾，並重點闡述我們在本年度中取得的重重大進展。

在瞬息萬變的商業世界中，採取負責任的方式至關重要，不僅是為滿足當前需求，更是為後代保留機會。我們深知持份者的深遠影響，因而繼續在我們的業務環節維持嚴格的可持續發展標準。本集團自二零二二年起一直實施結構化的環境、社會及管治五年路線圖，以系統性地提升我們的環境、社會及管治表現。董事會與環境、社會及管治委員會定期評估該路線圖的進展，在確保我們的業務發展與既定目標保持一致的同時，推動持續改進。該等行動彰顯本集團在促進社會及環境的可持續未來方面發揮的積極作用。

為進一步展現我們的承諾，我們持續參與全球房地產可持續發展基準（「GRESB」）評估，有助我們以行業基準評估我們的表現、識別不足之處並持續優化我們的策略。本年度，我們繼續積極參與評估過程，利用所獲取的見解，加強我們在各發展項目組合中的環境、社會及管治實踐。我們的持續參與反映了我們致力借鑑行業最佳實踐，並穩步提升我們的可持續發展績效。

3. Message from the Chief Executive Officer (Continued)

3. 行政總裁寄語(續)

During the Year, we advanced our asset management practices through several concrete initiatives. We actively participated in energy audits for The Parkside Mall and sought professional advice from CLP power on improving energy efficiency. In our view, energy audits are vital to our sustainability journey, as they offer detailed insights into how energy is consumed and help us identify where action is most needed. As a result of our sustained efforts, during the Year, we continued to advance our sustainability objectives by pursuing energy consumption and carbon emissions reduction targets, implementing waste recycling programmes, and working towards achieving green building certification across 100% of our development portfolio. These accomplishments form part of our broader commitment to reducing our environmental footprint.

Above all, I wish to extend my sincere thanks to our remarkable team. Your knowledge, dedication, and consistent drive have been essential to the sustainability successes we have achieved. The innovation and resilience shown across all levels of our organisation continue to go beyond what our stakeholders expect and strengthen the momentum of our sustainability journey.

Looking ahead, we will continue to pursue innovative and sustainable solutions with determination. Through collective action and a common vision, we are creating a lasting legacy of environmental responsibility and social value that will benefit generations to come. Together, we are not only building a more sustainable enterprise but also contributing to a better world.

Yours sincerely,

Tang Ho Hong

Executive Director and Chief Executive Officer

25 June 2026

本年度，我們實施多項具體優化措施，以推進資產管理實踐。我們積極參與The Parkside商場的能源審計，並向中華電力尋求提升能源效益策略的專業意見。我們堅信，能源審計於可持續發展工作中發揮重要作用，可為我們提供能源使用模式的詳細分析，有助我們識別最具迫切需要的行動。得益於我們的持續努力，本年度，我們繼續透過追求能源消耗及碳減排目標、建立廢棄物回收計劃，並致力實現發展項目100%獲得綠色建築認證，以推進我們的可持續發展目標。該等成果是我們持續降低環境影響的廣泛承諾之一。

最重要的是，本人謹向我們卓越的團隊致以最誠摯的謝意。你們的知識、奉獻及不懈努力對我們取得可持續發展成就至關重要。集團上下所展現的創新精神與堅韌毅力，持續超越所有持份者的期望，並增強了我們可持續發展旅程的動力。

展望未來，我們將矢志不渝探索創新可持續發展解決方案。通過眾志成城的努力與共同的願景，我們正在鑄就一份惠及未來世代的环境責任與社會價值的遺產。攜手共進，我們不僅在打造一個更具可持續性的企業，亦在為締造更美好的世界出一分力。

5. OUR SUSTAINABILITY APPROACH

5. 可持續發展方針

As we progress with the implementation of our 5-Year ESG Roadmap (2022-2027), the Group remains firmly committed to its long-term sustainability vision. This strategic framework continues to drive our proactive integration of ESG principles, enabling us to proactively address emerging risks, adapt to evolving industry trends, and strive for excellence in sustainable development.

隨著我們推進環境、社會及管治五年路線圖（二零二二年至二零二七年）的實施，本集團仍堅定致力於實現其長期可持續發展願景。此策略框架持續推動我們積極整合環境、社會及管治原則，有助我們積極應對新興風險、適應不斷演變的行業趨勢，並致力在可持續發展領域取得卓越成就。

5.1. MATERIALITY ASSESSMENT

5.1. 重要性評估

To identify and prioritise the Company's material ESG areas, the Group engaged an independent external consultant to conduct a comprehensive ESG materiality assessment during the Year.

為識別及優先排序本公司於環境、社會及管治的重要領域，本集團於本年度已委聘一家獨立外部諮詢公司進行全面的環境、社會及管治重要性評估。

The materiality assessment for the Year is structured into the following three key stages:

本年度的重要性評估分為以下三個主要階段：

Identification of Material ESG Topics 識別環境、社會及管治的重要議題

The ESG materiality assessment was conducted across two key dimensions. The first involved a gap analysis against the best practices outlined in the GRESB assessment framework covering both the Group-wide operations and project-level performance. The second dimension comprised peer benchmarking with local and international companies recognised for their strong sustainability performance. By integrating the insights of the two dimensions, the Group was able to identify key focus areas and determine the relevant actions needed.

環境、社會及管治重要性在兩個主要方面進行評估。第一方面涉及對GRESB評估框架概述的最佳實踐進行差距分析，涵蓋本集團整體營運以及項目層面的表現。第二方面包括與因其出色的可持續發展表現而獲認可的本地及國際公司進行對標比較。透過整合兩方面的評估結果，本集團能識別主要關注領域及釐定所需的相關行動。

Ranking of ESG Topics 環境、社會及管治議題排序

To ensure our ESG strategy stays aligned with stakeholder expectations, we conducted a comprehensive online stakeholder engagement survey, inviting both internal and external stakeholders to evaluate and prioritise key ESG topics relevant to our business. This inclusive approach enables us to focus our efforts on the most material sustainability issues, reinforcing our commitment to transparency and the creation of shared value.

為確保我們的環境、社會及管治策略與持份者期望保持一致，我們已進行一項全面的線上持份者溝通調查，邀請內部及外部持份者評估與我們的業務相關的關鍵環境、社會及管治議題並進行排序。該包容性舉措使我們能夠將精力集中於最重要的可持續發展事項，強化我們對透明度及共同價值創造的承諾。

7.1. BOARD'S STATEMENT ABOUT ESG GOVERNANCE

The Board recognises sustainable development as key driver of long-term corporate success. To translate this vision into action, the Group systematically integrates ESG principles across all business operations, demonstrating a firm commitment to improving sustainability performance through optimised resource utilisation. As the governing authority, the Board provides strategic oversight of ESG direction and decision-making, including regular review and deliberation of the Group's ESG performance, emerging opportunities, and risk exposures, in alignment with material topics identified through our comprehensive ESG materiality assessment.

To support the implementation of our ESG 5-Year Roadmap, the Group established the ESG Committee since FY2021/22. The primary objective of the ESG Committee is to analyse and identify the Group's material ESG issues and climate-related risks. The ESG Committee reports to the Board for the evaluation and subsequent implementation or revision of the Group's ESG strategies. In addition, the ESG Committee collaborates with an independent ESG consultant to conduct materiality assessment, prepare the Company's ESG reports and participate the annual GRESB assessment.

The ESG Committee is responsible for reporting annually to the Board on the Group's ESG performance, climate related risks and opportunities, and GRESB assessment results, as well as reviewing the ESG Policy and ESG Manual as appropriate. Upholding GRESB's best practices, all relevant staff members are subject to annual performance appraisals to access their contributions towards the advancement of the Group's ESG goals.

Information regarding the Group's Corporate Governance is addressed more in depth in the "Corporate Governance Report" section of the Company's Annual Report 2026.

7.2. ANTI-CORRUPTION

The Group upholds the highest standards of corporate integrity, maintaining a zero-tolerance policy toward all forms of corruption. This principle is clearly codified in our “Staff Handbook”, which explicitly prohibits bribery, extortion, fraud, money laundering, and other corrupt practices across all business operations.

To safeguard the Group’s integrity and mitigate corruption risks, the Group has established an anti-fraud and whistleblowing mechanism, allowing employees to confidentially report any suspected misconduct or corrupt practices to management. All reports are investigated discreetly, and where wrongdoing is confirmed, appropriate disciplinary measures will be taken or the matter will be referred to the relevant law enforcement authorities, depending on the circumstances.

The “Staff Handbook” also regulates employee conduct regarding gifts from third-party individuals and organisations, including tenants, licensed persons, service users, customers, business partners, etc., in any business activities, to avoid conflicts of interest. Employees are required to obtain prior approval from the Company before accepting any form of entertainment. Any violation of these policies may result in internal disciplinary actions or termination of employment. The Group also has in place an Anti-Corruption Compliance Policy, which prohibits all forms of bribery and corruption and provides employees with practical guidance on upholding ethical business conduct and complying with relevant laws and regulations.

Throughout the Year, the relevant training initiative has been systematically extended to all organisational levels, including Board members, ensuring comprehensive coverage of integrity standards.

7.3. RISK MANAGEMENT

Robust risk management is crucial to the Group's long-term sustainability. The Group formulates and implements risk management strategies based on a thorough analysis and understanding of the Company's risk profile. The Audit Committee supports the Board by providing oversight through regular reviews of corporate risk management and internal control systems. Meanwhile, management is responsible for designing, maintaining, implementing, and overseeing the risk management and internal control systems.

The Board carries out an annual evaluation of the Group's risk management and internal control frameworks and their associated procedures. This evaluation covers all major control areas, namely finance, operations, and compliance, to confirm that they remain appropriate and effective. To further strengthen the performance of these systems, the Group commissions an external consultant to carry out independent reviews. The findings and recommendations arising from these reviews are then examined by the Board and the Audit Committee, driving ongoing improvements.

8.1. ENERGY RESOURCES

During the Year, the Group's total energy consumption amounted to 139,236.98 kWh for office operations, 10,561,041.59 kWh for managed properties, and 3,769,554.10 kWh for development projects. The energy intensity metrics were recorded at 85.33 kWh/m² (offices), 209.62 kWh/m² (managed properties), and 42.30 kWh/m² (development projects). A detailed breakdown of energy usage across these categories is provided in Table 10.1.

To enhance energy efficiency, the Group conducted an energy audit at The Parkside Mall and engaged CLP Power to identify optimisation strategies. These initiatives contributed to a 90% year-on-year reduction in electricity consumption within tenant areas compared to FY2024/2025, primarily achieved through adjustments to operational protocols, including increasing the chilled water supply temperature.

The Group has adopted the following resource efficiency initiatives across its offices, managed properties, and development projects:

8.2. MANAGEMENT OF EMISSION

8.2. 排放管理

In support of Hong Kong's Climate Action Plan 2050, the Group remains firmly committed to achieving net-zero carbon emissions. To put this commitment into practice, the Group has engaged expert consultants to conduct a thorough carbon assessment of its operational GHG emissions. This assessment follows local benchmarks, including guidelines from Hong Kong's Environmental Protection Department and Electrical and Mechanical Services Department, as well as international standards such as ISO 14064-1.

During the Year, the Group recorded total greenhouse gas emissions of 44.68 metric tons of carbon dioxide equivalent ("tCO₂e") from office operations, 3,870.75 tCO₂e from managed properties, and 807.36 tCO₂e from development projects. The emissions intensity metrics were measured at 0.03 tCO₂e per square meter for offices, 0.08 tCO₂e/m² for managed properties, and 0.01 tCO₂e/m² for development projects. A complete analysis of the Group's GHG emissions across all operational segments during the Year, including detailed breakdowns for office activities, property management, and development projects, is provided in Section 10.1 Environmental Performance.

The Group increased its utilisation of electric vehicles at its headquarters office during the Year, as part of our overarching strategy to reduce greenhouse gas and air pollutant emissions. Across its operations, the Group has also put in place a range of measures aimed at reducing GHG emissions. Examples of these measures include incorporating renewable energy generation features into building designs, as well as installing video conferencing equipment in offices to cut down on business travel.

為支持《香港氣候行動藍圖2050》，本集團繼續堅定不移地承諾實現淨零碳排放。為將此承諾付諸實行，本集團已委聘專家顧問對其營運溫室氣體排放進行全面的碳評估。該評估遵循本地基準（包括香港環境保護署及機電工程署發佈的指引）及國際標準（如ISO 14064-1）。

於本年度內，本集團的溫室氣體排放總量為辦公室營運44.68公噸二氧化碳當量（「公噸二氧化碳當量」），管理物業3,870.75公噸二氧化碳當量，發展項目807.36公噸二氧化碳當量。辦公室的排放強度指標為0.03公噸二氧化碳當量／平方米，管理物業為0.08公噸二氧化碳當量／平方米，發展項目為0.01公噸二氧化碳當量／平方米。章節10.1「環境表現」提供本集團於本年度所有營運分部的溫室氣體排放完整分析，包括辦公室活動、物業管理及發展項目的詳盡明細。

本集團於本年度內增加總部辦公室電動車輛之使用，作為我們整體溫室氣體及空氣污染物排放減量策略之一部分。與此同時，本集團亦已在其營運過程中採取多項措施，以減少溫室氣體排放。該等措施的例子包括在建築設計中融入可再生能源發電功能，以及在辦公室安裝視頻會議設備以減少商務出行。

8.5. ENVIRONMENTAL AND NATURAL RESOURCES

Through proactive conservation efforts, the Group is dedicated to lowering the environmental footprint left by its operations. We carry out thorough environmental assessments at every stage of a project's lifecycle, enabling us to systematically detect and address both immediate and accumulated ecological effects. Our stringent review process guarantees that all design and construction practices conform to recognised environmental management systems.

Under our ecological compensation approach, the Group dedicates post-construction resources to native vegetation restoration programs. These targeted planting initiatives focus on indigenous species, helping to actively restore ecosystems and boost biodiversity in areas where our projects have an impact.

8.6. CLIMATE CHANGE

For businesses around the world, especially those in property development, climate change presents considerable operational and strategic difficulties. The Group is exposed to two categories of climate related risks. The first consists of physical threats arising from more frequent and severe weather events, which can undermine the integrity of infrastructure and compromise occupant safety. The second covers transitional challenges that stem from the worldwide move towards low carbon economies.

In light of these pressing concerns, the Group has put in place targeted management measures and set resilience building goals. These are designed to reduce climate vulnerabilities while preparing the organisation for sustainable growth in a future where carbon constraints are the norm.

8.5. 環境及天然資源

本集團致力通過積極的保護措施，減少其營運所留下的環境足跡。我們在項目週期的每個階段進行全面的環境評估，使我們能夠有系統地識別與處理直接及累積的生態影響。我們嚴格的審查流程確保所有設計及施工方法均符合認可的環境管理系統。

在我們的生態補償方針下，本集團將建設後的資源分配到原生植被復育項目。該等針對性種植計劃以本地樹種為核心，有助於積極恢復生態系統，並提高受我們項目影響地區的生物多樣性。

8.6. 氣候變化

氣候變化為全球企業帶來巨大的營運及策略挑戰，尤其是在物業發展行業。本集團面臨兩類與氣候相關的風險。第一類包含日益頻繁及嚴重的天氣事件造成的實體威脅，可能危及基礎設施的完整性並損害人員安全。第二類則涵蓋全球轉向低碳經濟模式所帶來的過渡挑戰。

為應對該等迫切問題，本集團已制定針對性的管理措施並設定抵禦力建設目標。該等措施旨在減輕氣候脆弱性，同時讓我們做好準備，以在限碳成為常態的未來實現可持續增長。

Furthermore, the Group keeps a close watch on the evolving regulatory landscape concerning climate matters. This includes the Stock Exchange's enhanced disclosure requirements, which are aligned with IFRS S2 Climate related Disclosures developed by the International Sustainability Standards Board ("ISSB"), as well as the recommendations of the Task Force on Climate-related Financial Disclosures ("TCFD"). To show its commitment to meeting regulatory expectations, the Group is actively assessing the ISSB framework with the aim of achieving full compliance with these updated rules. This vigilant stance reflects the Group's determination to remain a leader in climate transparency and to meet its disclosure obligations as sustainability reporting standards continue to evolve.

Climate-related Risks and Opportunities

To enhance the transparency and comprehensiveness of our sustainability reporting, we have systematically organised our climate-related risks and mitigation measures in accordance with the IFRS S2 Climate-related Disclosures and the recommendation of TCFD. This structured approach involves a thorough analysis across four core pillars: "Governance", "Strategy", "Risk Management", and "Metrics and Targets".

8.6.1. Governance

The Board oversees the overall operations of the Group and is supported by ESG and Audit Committees. The committees play a critical role in regularly providing ongoing oversight, supervision, and review of key ESG matters, including the climate-related risks. Refer to Section 7 Robust Governance for more details.

此外，本集團密切監察與氣候事宜相關且不斷演變的監管形勢。其包括與國際可持續準則理事會（「國際可持續準則理事會」）制定的《國際財務報告準則可持續披露準則第2號—氣候相關披露》以及氣候相關財務信息披露工作組（「TCFD」）的建議一致的聯交所加強披露要求。為表明本集團致力達到監管期望的承諾，本集團現正積極評估國際可持續準則理事會框架，以求完全遵守該等經更新規例。這嚴謹作風體現了本集團隨著可持續發展報告標準持續演變，致力於維持在氣候透明度方面的領先地位，並履行其披露責任。

氣候相關風險與機遇

為增強我們可持續發展報告的透明度和完整性，我們遵循《國際財務報告準則可持續披露準則第2號—氣候相關披露》及TCFD建議，系統地整理了我們的氣候相關風險及紓緩措施。此結構化方針包含對四大核心支柱的全面分析：「管治」、「策略」、「風險管理」及「指標與目標」。

8.6.1. 管治

董事會監督本集團的整體營運，並得到環境、社會及管治以及審核委員會的支援。該等委員會在定期對關鍵環境、社會及管治事宜（包括氣候相關風險）提供持續監督、督導及審閱方面發揮著至關重要的作用。有關更多詳情，請參閱第7.0節「穩健的管治」。

8.6.2. Strategy

To enhance the resilience of the Group's business amid climate change, we have evaluated the potential climate-related risks and opportunities across various business units. These risks and opportunities are evaluated over three defined time horizons, including short-term (1-2 years), medium-term (3-5 years), and long-term (5-10 years). The time horizons have been established to support effective integration into the Group's development planning and strategic decision-making processes, enabling the Group to formulate appropriate mitigation and adaptation measures aligned with its long-term sustainability objectives.

8.6.2. 策略

為提高本集團業務在面對氣候變化時的抵禦力，我們評估了各個業務單位的潛在氣候相關風險及機遇。該等風險及機遇乃根據三個明確的時間範圍進行評估，包括短期（1—2年）、中期（3—5年）及長期（5—10年）。設置該等時間範圍旨在支持將其有效融入本集團的發展規劃及策略決策流程中，使本集團能夠制定與其長期可持續發展目標相一致的合適緩解及適應措施。

8.6.3. Risk Management

As part of our commitment to building a climate-resilient and sustainable portfolio, we recognise the material impacts of climate change on our business operations and long-term resilience. Our proactive climate risk management framework is designed to systematically identify, assess, and respond to both climate-related risks and opportunities.

To address physical climate risks, we are progressively incorporating full hazard assessments into our corporate risk register. This process includes detailed scenario analyses based on historical extreme weather events, especially floods, typhoons, and landslides, so that we can evaluate potential impacts on our assets and operations. Our real-time monitoring systems allow us to keep track of emerging climate threats and implement adaptive measures in a timely manner. As for transition risks, we periodically revise our Engineering Standards to reflect the latest energy efficiency requirements and low carbon design principles. This forward-looking approach enhances the resilience of our portfolio to regulatory changes and evolving market expectations towards sustainable development.

8.6.3. 風險管理

作為我們致力於構建具氣候抵禦力及可持續發展物業組合的承諾的一部分，我們深知氣候變化對業務營運及長期抵禦力的重大影響。我們積極的氣候風險管理框架旨在有系統地識別、評估以及應對氣候相關風險及機遇。

為應對實體氣候風險，我們正逐步將全面風險評估納入公司風險清單。此程序包括運用極端天氣歷史事件（尤其是水災、颱風及山泥傾瀉）進行詳細的情景分析，以便我們評估對自身資產及營運的潛在影響。我們的實時監控系統使我們能夠追蹤新出現的氣候威脅，並及時實施適應性措施。過渡風險方面，我們定期修訂工程標準，以反映最新的能效要求及低碳設計原則。此前瞻性方法能夠加強我們物業組合對監管變化及市場對可持續發展不斷演變的期望的抵禦力。

To improve the quality and breadth of climate disclosures, the Group is enhancing its data collection, management, and reporting processes to support more robust scenario analysis, quantitative assessments, and expanded emissions reporting, including greater coverage of Scope 3 emissions across the value chain. Further work will also be undertaken to assess exposure to transition and physical climate risks, identify vulnerable assets, and evaluate related capital expenditure, financing and investment implications.

As part of its decarbonisation journey, the Group will continue to implement energy, carbon and water reduction targets for its property management assets, while exploring opportunities to further strengthen its climate management approach. This includes evaluating the potential application of external target validation, carbon credits, internal carbon pricing mechanisms, and climate-related considerations within remuneration and decision-making processes. The Group will also work towards developing and disclosing industry-specific climate metrics to enhance transparency and align with evolving stakeholder expectations, regulatory requirements and market best practices.

9.2. CARING OUR PEOPLE

A strong employee value proposition depends heavily on competitive pay packages and extensive fringe benefits, which in turn boost productivity and strengthen organisational commitment. Through robust policies and well-structured engagement activities, we cultivate a cohesive workplace culture. At the same time, enhanced internal communications and focused team building programmes help reinforce connections among employees and foster a sense of belonging at every level of the organisation. This multi-pronged approach systematically enhances both individual satisfaction and overall team performance.

The Group has put in place a comprehensive employee care framework. It includes the “W CARE” programme, which uses charitable and recreational activities to build team cohesion; the “Self-learning Zone”, offering resources for professional and life skills to support self-driven growth; and monthly Workplace Safety Newsletters that reinforce awareness of operational safety, covering areas such as on site and office safety protocols. This framework weaves safety practices into daily work routines, deepens employees’ sense of belonging, and strengthens overall team wellbeing.

9.2. 關愛我們的員工

建立強大的員工價值主張在很大程度上依賴於具競爭力的薪酬方案及全面福利待遇，從而提升生產力及加強組織承擔。透過穩健的政策及精心構建的參與活動，我們培育出具有凝聚力的工作場所文化。與此同時，經強化內部溝通及針對性團隊建設計劃，有助於加強員工之間的聯繫，並在組織各個層面培養歸屬感。此多管齊下方針系統性地提升個人滿足感及整體團隊表現。

本集團已建立全面的員工關懷框架，包括「W CARE」計劃，該計劃透過舉辦公益慈善及休閒娛樂活動，促進團隊凝聚力；「Self-learning Zone」提供職場技能與生活智慧資源支持自主成長；及每月發行《職安通訊》強化操作安全意識（包括工地和辦公室安全規範）。該框架將安全實踐滲透到日常工作細節中，深化員工的組織歸屬感，全面提升團隊整體福祉。

9.3. HEALTH AND SAFETY

The Group maintains an unwavering commitment to safeguarding employee health and safety in the workplace. Our comprehensive “Staff Handbook” and supporting policies establish rigorous management systems and preventive controls for occupational health and safety. To proactively mitigate workplace hazards, all employees are required to promptly report any potentially unsafe work methods or facility conditions to their direct supervisors and the Human Resources Department. This structured reporting protocol enables prompt investigation and corrective actions, ensuring continuous improvement of our safety standards and prevention of workplace accidents.

During the Year, the Group recorded 2 work-related injury cases and 332 lost days, primarily due to slips, trips, falls, and muscle strain incidents. Following each incident, we conducted thorough investigations and implemented corrective measures. To prevent recurrence and strengthen workplace safety, occupational safety handbooks have been distributed to all employees to reinforce proper safety protocols and awareness. The Group has maintained zero work-related fatalities over the past three years, including the reporting year.

As a responsible property developer, the Group prioritises the well-being of all construction workers employed by our contractors. To minimise on-site safety risks, we require contractors to develop and submit comprehensive safety management plans for our review and approval prior to commencing any work. Additionally, we engage independent safety consultants to monitor the execution of these safety plans, conduct regular site inspections, identify potential hazards, and recommend corrective actions to ensure full compliance with our stringent safety standards.

9.3. 健康與安全

本集團堅守承諾，致力營造保障員工健康與安全的工作環境。我們全面的《員工手冊》及相關政策建立嚴謹之職業健康與安全管理制度及預防機制。為主動減低工作場所風險，所有員工須即時向直屬上司及人力資源部門報告任何潛在不安全的工作方式或設施狀況。此有系統的通報機制有助迅速展開調查及採取糾正行動，從而持續改進本集團的安全標準及防止工作場所意外發生。

於本年度，本集團共錄得2宗工傷個案，損失332個工作日數，主要由於滑倒、絆倒、跌倒及肌肉拉傷等事件。每宗事故發生後，我們均展開徹底調查並實施糾正措施。為防止再次發生及進一步加強工作場所安全，我們已向全體員工派發職業安全手冊，以加強對安全守則的認知及意識。本集團於過去三年（包括報告年度）均維持零工傷死亡記錄。

本集團作為負責任的物業發展商，重視所有由承包商僱用的建築工人的福祉。為盡量減低工地安全風險，本集團要求承包商於動工前擬備並提交全面安全管理計劃，供我們審閱及批准。此外，本集團亦委聘獨立安全顧問監察該等安全計劃之執行情況，定期進行工地巡查、識別潛在風險，並提出糾正行動建議，以確保全面符合我們嚴格的安全標準。

We systematically offer diverse learning and growth opportunities through a complete, end to end training management process. This process covers the identification of training needs, customisation of programmes, delivery of content, and evaluation of outcomes. The Human Resources function works across different departments to spot competency gaps, set development priorities, and design bespoke solutions that align with both employees' personal career goals and the organisation's strategic aims. Strong feedback mechanisms, based on participant evaluations, allow us to make data driven improvements to our programmes. This ensures that our training offerings stay continuously aligned with changing professional demands and business needs.

Comprehensive professional development support includes subsidised Education Bureau-accredited courses, protected examination and study leave, and financial sponsorship for professional certifications. Annual performance evaluations directly influence both career advancement opportunities and individualised upskilling roadmaps, supporting continuous competency development in line with industry evolution and strategic business requirements. During the Year, we successfully renewed our membership under the "ERB Manpower Developer Award Scheme" organised by the Employees Retraining Board (ERB), recognising our ongoing commitment to talent development and its continuous efforts in employee training, learning, and professional development.

As an extension of our employee development initiatives, the Group launched the "Self-learning Zone" this year – a self-directed learning platform designed to provide updated and practical resources (covering office software applications, management techniques, and life skills). The 'Self-learning Zone', a collaborative initiative led by the Group Training Department, offers diverse learning materials – from Excel tips and AI tools (e.g., Doubao, DeepSeek) to life hacks like 'Home Organisation Tips.' It empowers employees to grow professionally and personally, promoting work-life balance.

我們透過完整的端到端培訓管理流程，系統性提供多元化學習及發展機會，該流程涵蓋培訓需求的識別、課程的定制、內容的傳遞及成果的評估。人力資源職能部門與各部門合作，識別能力差距、設定發展優先次序，並設計符合員工個人職業目標及組織戰略目標的定制化解決方案。基於參與者評估的強大反饋機制，使我們能夠以數據為導向對課程進行改進。此舉確保我們的培訓與不斷變化的專業需求及業務需求持續保持一致。

全面的專業發展支援包括教育局認可的資助課程、受保障的考試及進修假期，以及財務贊助專業資格。年度表現評估直接影響晉升機會及個人化技能提升規劃，持續支持能力發展，以配合行業演變及業務策略需求。本年度，我們成功續任由僱員再培訓局(ERB)舉辦的「ERB人才企業嘉許計劃」成員，充分肯定我們對人才發展的持續承諾，以及我們在僱員培訓、學習及專業發展方面的不斷努力。

作為員工發展計劃的延伸，本集團於年內推出「Self-learning Zone」自主學習平台，設計用於提供更新及實踐資源（涵蓋辦公軟件應用、管理技巧及生活智慧等領域）。由本集團培訓部主導的聯合項目「Self-learning Zone」提供多元學習內容—不僅涵蓋Excel技巧、豆包及DeepSeek等AI工具，也納入「執屋小百科」等生活實用知識。其助力同事實現專業及個人成長，促進工作與生活平衡。

9.5. LABOUR PRACTICES

As clearly outlined in our “Manual on Human Resource Management” and “Staff Handbook”, the Group maintains a strict policy against child and forced labour. These policies explicitly prohibit the employment of underage individuals, requiring all job applicants to present original identification documents for thorough verification by our Human Resources Department. In the event of any inadvertent hiring of a minor, the Group will immediately terminate the employment arrangement, facilitate the individual’s safe return to their guardian, and assume all associated costs. This zero-tolerance approach underscores our commitment to ethical employment practices and legal compliance.

The Group also upholds strict ethical employment standards through clearly defined overtime compensation policies detailed in our “Staff Handbook,” ensuring all work arrangements remain voluntary. Furthermore, we guarantee employees’ right to terminate employment through established mutual agreement procedures, reinforcing our commitment to fair labour practices and voluntary workplace relationships.

Remarks				備註			
2. All environmental performance indicators underwent external checking (data review but not assurance/verification according to related schemes) that was conducted by an independent third party.				2. 所有環境績效指標均經過一名獨立第三方的外部檢查 (數據審視, 惟非根據相關計劃的保證 / 核實)。			
3. Since the Company and Wang On Group Limited share the same office premise as headquarter office, the area was divided by two to calculate the intensity.				3. 因本公司及宏安集團有限公司共用同一辦公室物業作為總部辦公室, 故將其面積除以二以計算密度。			
4. The property management covered 5 property sites and we have sought to collect environmental data for both common and tenant areas where possible.				4. 物業管理涵蓋五個物業場地, 我們已在可能情況下盡力收集公共區域及租戶區域的環境數據。			
5. The projects under development covered 10 project sites. This is a voluntary disclosure of the data from our contractors, which represents our supply chain data.				5. 在建項目涵蓋十個項目地盤。該數據為我們的承包商自願披露的數據, 即我們的供應鏈數據。			
6. The sharp decrease in 2026 emissions compared with 2025 is primarily attributable to the expanded use of electric vehicles at the headquarters office during the Year.				6. 2026年度總部辦公室排放較2025年度大幅下降, 主要歸因於本年度內擴大電動車輛之使用。			
7. Travel distances for machinery vehicle were estimated with reference to Energy Consumption Indicators published by the EMSD in Hong Kong.				7. 機械車輛的交通距離乃參考香港機電工程署發佈的能源消耗指標估計。			
8. Due to improvements in the data collection system, the 2025 SOx emissions data has been revised to enhance data accuracy and comparability.				8. 因數據收集系統優化, 二零二五年硫氧化物排放數據已作出修訂, 以提高數據的準確性及可比性。			
9. The figures have been rounded up to four decimal places to enhance data comparability.				9. 為提升數據可比性, 數字均四捨五入至小數點後四位。			
10. GHG emission data is presented in terms of carbon dioxide equivalents and is based on, but not limited to, the “How to prepare a ESG Report – Appendix II: Reporting Guidance on Environmental KPIs” issued by the Stock Exchange, and “Guidelines to Account for and Report on GHG Emissions and Removals for Buildings (Commercial, Residential or Institutional Purposes)” issued by the Environmental Protection Department and the Mechanical Services Department.				10. 溫室氣體排放數據以二氧化碳當量呈列, 並基於但不限於聯交所發佈的《如何編製環境、社會及管治報告 – 附錄二: 環境關鍵績效指標匯報指引》以及環境保護署及機電工程署發佈的《香港建築物 (商業、住宅或公共用途) 的溫室氣體排放及減除核算及報告指引》。			
11. Scope 1 includes GHG emissions generated from fuel consumption for vehicle and equipment consumption; Scope 2 included GHG emissions generated by electricity consumption.				11. 範圍1包括由車輛及設備使用的燃料產生的溫室氣體。範圍2包括由電力消耗產生的溫室氣體。
